

QUALITY ASSURANCE POLICY OF SRDI O&G “PETON” LLC

MISSION

SRDI O&G “Peton” LLC contributes to the economic development in Russia by efficient engineering at oil and gas industry facilities.

STRATEGIC GOAL

The strategic goal of SRDI O&G “Peton” LLC is to take the lead in the relevant market of products and services in the fuel and energy sector.

To achieve its strategic goal, SRDI O&G “Peton” LLC maintains the Quality Management System and improves it on an ongoing basis.

PRIORITIES

SRDI O&G “Peton” LLC has identified the following priority areas for its quality management efforts:

- Creating and promoting high-potential innovation developments providing for creation of new-generation products, technologies, and services for the oil and gas processing industry;
- Using the Company’s own licenced technologies making it possible to reduce OPEX and CAPEX and improve energy efficiency;
- Making engineering and managerial decisions to ensure effective and efficient performance by the Company;
- Involving the leading Russian enterprises in the manufacture of high-tech equipment, materials, and components for the fuel and energy sector;
- Planning and implementing activities associated with prompt risk management and opportunities to implement EPC/M projects;
- Promoting employees’ professionalism and Company’s traditions;
- Involving all employees in joint activities to achieve the Company’s goals.

The management of SRDI O&G “Peton” LLC shall take charge of implementing this Policy, ensuring compliance of the Quality Management System with applicable requirements and ongoing improvement thereof, and providing the necessary resources.
